Rowan Torbitzky-Lane

rowan.a.tl@protonmail.com • brokenglass.dev • github.com/RowanTL • linkedin.com/in/rowantl

Skills

- Linux
- Python Pandas/Polars
- C++
- Java
- Rust
- Haskell
- Nginx
- PyTorch
- Slurm
- Bash
- Django
- TypeScript
- Docker
- VBA
- Azure DevOps
- SQL (Microsoft/PostgreSQL)
- Git
- Firewalld

Objective

Motivated Computer Science graduate seeking to develop valuable team environment and programming experience. Skilled at taking lead in a project while working multiple concurrently. Able to learn systems and ask questions only when needed.

Personal Projects

Self-Hosted Linux Server   January 2023 - Present

- Interact with Router Firewall
- Host Wireguard Virtual Private Network
- Manage Reverse Proxy connections with Nginx
- Point Domain Names via A Records
- Built from Components Ordered Online
- Self Host a Git Server

Education

Missouri University of Science and Technology   Rolla, MO
B.S. Computer Science, with a Minor in Mathematics.   December 2024
Summa Cum Laude   GPA: 3.80/4.00

Experience

Data Science Co-Op   January 2022 - August 2022
Hunter Engineering Company   Bridgeton, MO

- Utilize Microsoft Excel for Data Annotation
- Train Convolutional Neural Networks with YOLO and PyTorch
- Design and write APIs with FastAPI and Flask
- Containerize said APIs with Docker
- Program internal tooling leveraging Pandas and Microsoft SQL
- Implement workflows into internal Azure DevOps Git repository
- Attend Bi-Weekly Lunch and Learns covering Full-Time Employee Responsibility
