Skills

- Python
- Rust
- C++
- Pandas/Polars
- Evolutionary Computing
- SQL
- Linux
- PyTorch
- Java

Experience

NSF REU Program

May 2024 - October 2024

Missouri University of Science and Technology

Rolla, MO

- Research Bi-Directional LLMs to Correct Errors in Genome Reads
- Interact with Campus HPC and CUDA for Training
- Clean data with Scikit-learn and Scikit-bio

Undergraduate Research Assistant

May 2023 - October 2023

Center for Intelligent Infrastructure

Rolla, MO

- Perform Annotations for Image Segmentation Convolutional Neural Networks
- Calculate Optical Flow via MATLAB and C++

Data Science Co-Op

January 2022 - August 2022

Hunter Engineering Company

Bridgeton, MO

- Train Convolutional Neural Networks with YOLO and PyTorch
- Containerize Models inside Docker
- Create automated workflows involving Pandas and Excel
- Store data via Microsoft SQL and S3 Bucket Storage

Personal Projects

Rust Systematic Trading Project

November 2025 - Present

- Create Forecasts based on technical indicators
 - Includes continuous modifications of the EWMAC and RSI
- Understand basics of Volatility Targeting and Position Sizing
- Utilize Plotlars for Data Visualization

Self-Hosted Linux Server

January 2023 - Present

- Utilize CUDA for Accelerated Model Training
- Construct a bird Object Detection Model
- Experiment with local LLMs to increase programming productivity

Rust Evolutionary Computing Framework

March 2025 - June 2025

- Implement a Genetic Algorithm specification in pure Rust
- Ensure Program Correctness via Unit Testing

Education

Lindenwood University

St. Charles, MO

B.S. Mathematics

Spring 2027

GPA: 3.80

Missouri University of Science and Technology

Rolla, MO

B.S. Computer Science, with a Minor in Mathematics

Fall 2024

Summa Cum Laude

GPA: 3.80

Invited Talks

Genetic Programming in Python @ PySTL https://www.youtube.com/watch?v=ZzYi_j2IYuY

September 18th, 2025

Actix Web Unleashed @ STL Rust <https://rumble.com/v72mid6-actix-web-unleashed.html>

December 4th, 2025
